Vikram Suresh Bhosale

Contact No: +91 8446739782
Email ID: vikrambhosale820@gmail.com   **React JS /Frontend Developer**

Career Overview:

UI Developer with 3 years of experience in designing, developing, and deploying responsive web and mobile applications. Strong expertise in React.js, React Native**,** TypeScript, Redux Toolkit, and real-time applications using WebSocket**,** WebRTC**,** and Socket.IO.Experienced in collaborating with cross-functional teams and participating in sprint-based development environments and high-performance UI solutions.

Technical Skills:

Frontend Technologies:
HTML5, JavaScript, TypeScript, React.js, React Native.

Frontend Architecture & Performance:
Client-Side Rendering (CSR)
Server-Side Rendering (SSR)
Component-Based Architecture
Lazy Loading & Code Splitting
Performance Optimization

UI & Styling:
Tailwind CSS, CSS3, Bootstrap 5, SCSS, Material UI

State Management:
Redux Toolkit, Context API

Real-Time & Integration:
RESTful APIs, WebSocket, Socket.IO, WebRTC, SignalR

Authentication & Security:
JWT, SSO, Data Encryption & Decryption, XSS Prevention, Input/Data Sanitization

Tools & Platforms:
Git, GitHub, Visual Studio Code, Webpack

CORE COMPETENCIES

- UI Designing & Responsive Design
- State Management & Performance Optimization
- Component-Based Architecture
- CI/CD Awareness

PROFESSIONAL EXPERIENCE & PROJECTS:

1. CLUBPOKER – Salus Technologies (Frontend Developer)

Duration: Apr 2023 – Mar 2025 | Team Size: 5+
Technologies: React.js, Redux, JavaScript, WebSocket, Bootstrap,
Project Overview:
Real-time multiplayer online poker game with dynamic gameplay and secure communication.

Key Contributions:

- Developed real-time player communication using WebSocket
- Developed secure authentication modules (Login, Registration, Password Recovery)
- Designed interactive poker table UI with animations and real-time updates
- Built reusable and scalable React components and optimized Redux state management

2. ZIGGSTA – Salus Technologies (Frontend Developer)

Duration: Mar 2025 – Aug 2025 | Team Size: 4+

Technologies React Native, WebRTC, Socket.IO, Node.js

Project Overview:

Real-time video streaming mobile application with themed rooms and co-hosting features

Key Contributions:

- Implemented peer-to-peer video streaming using WebRTC with STUN & TURN servers
- Built real-time video and chat functionality using Socket.IO
- Developed audio mute/unmute, co-host stream control, and reconnection logic

3. ANDAR BAHAR GAME – YsecIT Software (UI Developer)

Duration: Sept 2025 – Present

Technologies React.js, TypeScript, Redux, SignalR, Micro-Frontend, tailwind CSS, SCSS,

Project Overview:

Real-time online Andar Bahar game with responsive and scalable UI.

Key Contributions:

- Implemented live bet validation and chip animations
- Handled SignalR real-time data updates
- Developed micro-frontend components such as Scale Container, Circular Progress, Bet Chip, and Card components

Education:

Bachelor of Computer Science (BCS) Solapur University, Maharashtra Year**:** 2022
Higher Secondary Certificate (HSC – Science) Pune Divisional Board | Year**:** 2019
Secondary School Certificate (SSC – Science) Pune Divisional Board | Year**:** 2017
